

June 2015

To the Homeowners of Forty Love Point & Indian Fork:

We regret to inform you that Carolina Water Service must temporarily implement an irrigation restriction in the Forty Love Point and Indian Fork subdivisions until further notice.

For the time being, in order to avoid having irrigation demand lower the pressure of the system too much during the morning and afternoon peak demand hours, we ask that you abide by the limitations outlined below.

Carolina Water Service is asking you to conserve water as follows:

Restrictions on Use of Outside Water:

- 1. Outdoor irrigation limited to a maximum of two days per week**
 - a. Premises with even addresses – Tuesday, Thursday, or Saturday.**
 - b. Premises with odd addresses – Wednesday, Friday, or Sunday.**
- 2. No watering is allowed on Monday to give the water system a chance to recharge.**
- 3. No watering is to occur between the hours of 5:00 am and 9:00 am or between 3:00 pm and 8:00 pm.**

The help of the neighborhood in limiting lawn irrigation, so as not to coincide or conflict with peak demand hours, is greatly appreciated. Please follow these watering restrictions so as to avoid further restrictions which could include prohibiting all outdoor water usage.

Carolina Water Service is in the process of seeking a DHEC Construction Permit regarding the installation of a 12" water interconnection pipeline with the City of Columbia that, when completed, will provide the Forty Love and Indian Fork communities with an ample supply of water. CWS anticipates the construction of the pipeline to be completed during the upcoming winter months and prior to the warm weather months of 2016. Until then we ask that you please limit your lawn irrigation according to the above guidelines.

We greatly appreciate your cooperation during this time.
